

FLAME INTERNATIONAL TUTORIAL ACADEMY

Curriculum

- **All Sciences**
- **All Commercials**
- **All Arts**
- **All Social Sciences**

The school crafted a unique learning program which has been aptly called the 'E' curriculum. The 'E' curriculum which is representative of an effective, encouraging, exciting and enriching approach aimed at incorporating both content and key skills into learning using content material which is real, relevant and meaningful to learners. The learner's environment, society and background playing the key role.

Establishment

The Academy was established by a group of vibrant, enthusiastic teachers who were eager to spread their wings starting off as one on one tutors, they got to fully understand the differing needs and diversity of their learners. They saw it necessary to kick start a Tutorial Academy that sought to focus more on individual students, that could be groomed to become potential success stories in their own right, they encouraged students that would be independent, tolerant, and have opinions.

It was through this path that the teachers got zealous enough to establish **Flame International Tutorial Academy** in **2020**. The Academy has been running for three years now and is soldiering on towards the highest levels of education. The Academy has a teaching staff compliment of eight teachers. It is run by a Principal and a team of Administrators which comprise the Matron, Patron and Operations Staff, whilst the Chairperson of the School Board oversees the smooth running of the Academy.
